Andreas Streubig, senior vice president global corporate responsibility and public affairs at Hugo Boss, stated, "At Hugo Boss, we are committed to sustainability, and understand that forests have a vital role to play in stabilising our climate and keeping our planet livable."

Body Banner 04
800px x 90px

"The Etam Group is committed to making decisions that show respect for our planet. That's why we are pleased to be collaborating with Canopy to ensure the sustainability of our forest-derived products, from the viscose used in our products to the paper and cardboard in our packaging," says Kachen Hong, The Etam Group CSR director.

Kachen Hong also said, "We know that forests are integral to keeping our planet's climate stable, and to the millions of species and people who live in them, and we are eager to do our part to help protect them."

One of the main priorities of Canopy's work with brands is game-changing which will help in the production of accelerated commercial scale of next generation solutions.

In the meantime, as market demand for round-the-clock alternatives intensifies, four additional next-generation innovators have joined hands with brand new partners.

The initiatives of this technology are creating groundbreaking production innovations to reduce today's sourcing pressures on vital forests.

In addition to Hugo Boss, Atom, Scotch & Soda and Spinnova. With them new members are Bastcore, Chaser, The Hurd Co, The IDEPS GmbH and Saltwater Lux.
